Easton

PA

I'm inspired by crafting creative solutions to problems, whether it's building the right architecture for data on the backend or creating a beautiful user experience on the front end. I enjoy working with good people who love to share ideas and make a difference.

Experience

- 01-2016 - present

Junior Full-Stack Engineer

PetFlow, New York, NY

 - Implemented front end features
 - Used PHP (Laravel) on the back end
 - Wrote unit tests
 - Refactored parts of a large codebase
